

Grayson Brick Profile

Light weight Aluminium Brick Profile

This 2.5-metre Brick Profile is made from a lightweight aluminium, has etched markings every 75mm and 225mm to allow for quick yet accurate brick and block laying, and is brightly coloured for health & safety.

Brick Profile

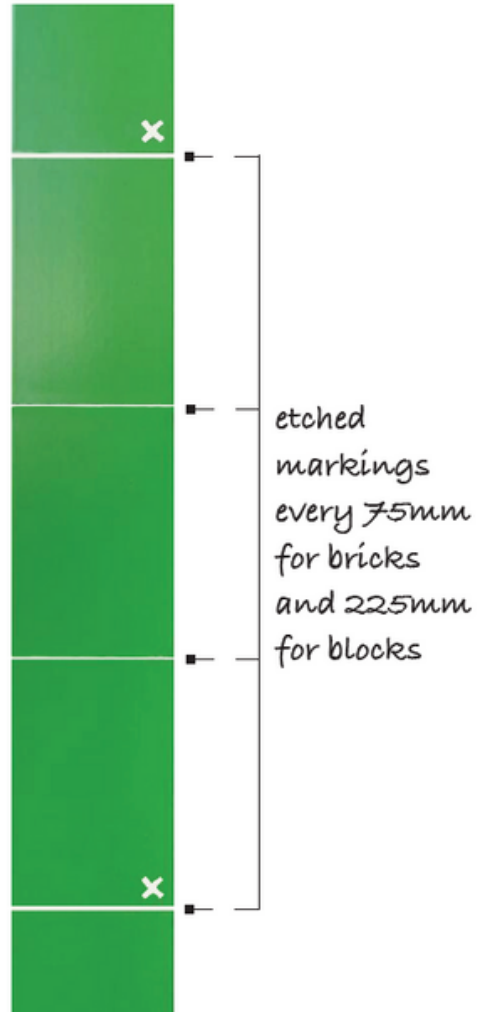

- ✓ Can be sold in pairs or individually
- ✓ Measures 50mm x 50mm x 2500mm
- ✓ Brightly coloured for health & safety

User-friendly

- ✓ Lightweight aluminium for ease of use and transportation around site, particularly when feeding up and down scaffolding
- ✓ Marked up for bricks and blocks to ensure accurate bricklaying
- ✓ Plain side allows own markings to be used if required and wiped clean for re-use

Hassle-Free and Versatile

- ✓ Aluminium material for corrosion resistance
- ✓ Can be easily cut to any size on site
- ✓ Suitable for use on external and internal profiles

Size:	50mm x 50mm x 2500mm
