

## Coil Mesh Roll

### Brickwork Reinforcement

This type of product increases the rigidity of masonry panels by introducing steel into the bed joint of the wall, either to merely resist cracking or in a more structural sense.

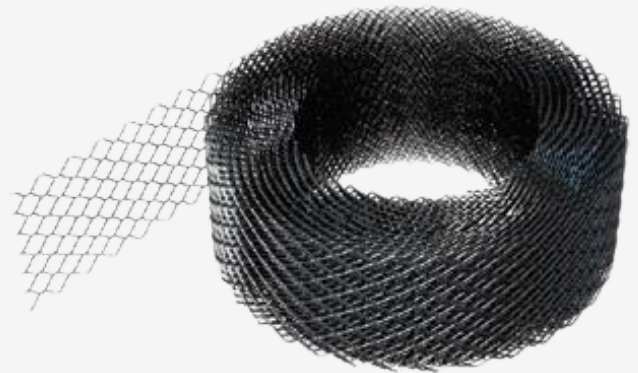

#### Product Description:

An expanded metal mesh available in various widths, stainless or galvanised steel. Designed to be incorporated into masonry for crack control.

Available in 20m rolls:

<b>Galvanised</b>	<b>Stainless Steel</b>
-------------------	------------------------

- |         |         |
|---------|---------|
| • 65mm  | • 65mm  |
| • 115mm | • 115mm |
| • 178mm | • 178mm |
| • 225mm | • 225mm |
| • 305mm |         |

#### Safety Precautions:

Coil Mesh is manufactured from sheared plate and strip so may contain sharp edges. Suitable personal protection should always be used when handling/installing these products.

#### Technical Specifications:

<b>Mesh size:</b>	20mm x 10mm
<b>Galvanised weight:</b>	0.9Kg/m <sup>2</sup>
<b>Stainless Steel weight:</b>	1.11Kg/m <sup>2</sup>
<b>Galvanised coils made from:</b>	BSEN 10142 DX51 (g275)
<b>Stainless Steel coils made from:</b>	BSEN 10088-2 grade 1.4301
